Geometric proposal

Reflective Reasoning

Reflect

$\langle \text{think} \rangle \backslash n$

1. The target object is a soldier without a coat. $\backslash n$
2. Zooming in on the red-boxed region, there is a person wearing a coat, not a soldier without a coat. $\backslash n$
3. The red box does not match the description of a soldier without a coat. $\backslash n$
4. Conclusion: Unreliable $\backslash n$

$\langle \text{think} \rangle \backslash n$

$\langle \text{answer} \rangle$ Unreliable $\langle \text{answer} \rangle$

(b) connector structure
